Eclipse Foundation: Tanja Obradovic, Paul Buck (chair)

Guests: **Scott Stark**, **Scott Marlow**

Past business / action items:

- Approval is requested for the meeting minutes from the June 15th, 2022 meeting as drafted - Approved.

## Agenda:

- Note: Paul Buck is on PTO, Tom Watson is you chair for the June 29th meeting
- Ongoing tracking [spreadsheet](#) of individual specs progressing through the [JESP](#)
  - Jakarta EE 10 Release Review - Specifications
    - PRs <https://github.com/jakartaee/specifications/pulls>
    - Release Plan  
<https://eclipse-ee4j.github.io/jakartaee-platform/jakartaee10/JakartaEE10ReleasePlan>
    - Wiki <https://github.com/eclipse-ee4j/jakartaee-platform/wiki/JakartaEE10>
    - Concurrency TCK issues
      - Looking to have a point release
    - restful TCK issues
      - Technical issues to get this done quickly
      - Has XML binding at a method level (can we add @TAG annotation?)

- If that doesn't work to exclude with TAG annotation then much more work is needed to split the TCK artifacts.
  
  - Issues with TCK challenge operation
    - Cannot tag issues with challenge label
      - Can we have labels that do not require committer access?
      - Collaborator for github, does that allow you to add labels?
    - Inconsistent response from spec projects
    - <https://github.com/jakartaee/specification-committee/issues/57>
  
  - Review and discuss items to focus on next, see the issues labeled as “enhancement”, other issues are welcome and form the body of our EE 10 Spec Committee retrospective
    - <https://github.com/jakartaee/specification-committee/issues>
    - Also see Rebase JESP to EFSP 1.3 Pull Request  
<https://github.com/jakartaee/JESP/pull/9>
  
  - “Operation, process issues to discuss” email from Scott Stark  
<https://www.eclipse.org/lists/jakarta.ee-spec.committee/msg03201.html>  
Carried over from June 15th call where time ran out to discuss. Consider creating tracking issues as was done for the other post-EE 10 topics.
  
  - TCK Process update for service releases
    - <https://github.com/jakartaee/jakarta.ee/pull/1496>
    - TCK updates, what can be done for point release?
      - Only for exclusion of tests or fix working on new Java SE versions
      - Need clarification on the process
- Look for e-mail to kick off what may need to change in TCK process and can we apply to EE 10.
